Press Release

Affordable Language Services Secures International Trade Certification

April 26, 2017

Cincinnati, Ohio

On March 10, 2017, Affordable Language Services obtained certification in International Trade. The company Controller, Kristi Reynek who joined the company in early 2016, successfully completed the training and testing conducted by the World Trade Center of Kentucky.

The certification class which consisted of a three-day program taught by experts from banking, tax, legal, customs compliance, market intelligence, freight forwarding, customs brokerage and the government provided a foundation for effective and efficient international trade operations management.

“Affordable Language Services is excited about this new company credential because it will allow us to have a stronger presence when doing business abroad, and enables us to service our customers with more knowledge about international processes” said Reynek.

“Affordable Language Services has approximately 200 linguists living outside of the United States that support our customers with localized translation. This results in the highest quality of work because our linguists actually live in the countries of the languages into which they translate” said Amy Canary, General Manager.

Affordable Language Services is a professional language interpreting, localization, and translation service company that understands the need to foster communication between companies and their global partners. They have 17 years of experience serving companies to meet needs in translation, transcription, on-site and telephonic interpreting, and advanced interpreter training. Affordable Language Services has interpreters and linguists that are experts in more than 130 languages. As a recognized industry leader, Affordable Language Services has been ranked in North America and globally among the largest language service providers. Specializing in the healthcare segment, Affordable Language Services also provides services to food processing, manufacturing, government, education, consumer packaged goods, marketing agencies and legal companies. Affordable Language Services is the only language provider in Ohio to be ISO certified, resulting in only the highest quality for our customers across all industries that we serve. Affordable Language Services consistently provides a high service level and customer intimacy stemming from dedication to improving lives and serving others through effective communication.
